If you receive Care Credit, you must first use up that money before using any money from the Velvet Fund. Cases being considered for must be an emergency, have a fair to good prognosis and demonstrate financial need. Please see website for more details or contact Dove Lewis Pet Hospital at (503) 228-7281. Address: 1945 NW Pettygrove St., Portland OR 97209

Financial Assistance: Other Options to Try

- Be upfront with your veterinarian about your financial restrictions.
- Discuss with your veterinarian the minimum treatment to save your animal's life. For example, purchasing a wheelchair for an animal can be more attainable than a full hip replacement. Your veterinarian can help you evaluate what is most helpful for your situation, keeping your animal's quality of life in mind.
- Ask other area clinics how much they normally charge for a similar treatment on a similar animal. Costs can vary widely from clinic to clinic.
- Offer to wash floors or do other labor at the veterinary clinic in exchange for lowering the treatment cost.
- Find a quick way to earn money, such as having a bake sale, yard sale or car wash.
- Create a funding page using your social network site or other funding tool, like Chip In (www.chipin.com) or Give Forward (www.giveforward.com).
- Post fliers or collection jars with a description of the situation and a picture of the animal at local dog parks, vet clinics, pet stores and other community gathering places.
- Contact church or community organizations you are connected with and explain your situation. They may be willing to help you fundraise or to raise awareness.
- Ask your family and friends for loans or to help spread the word about your situation.

- If the animal is purebred, contact that breed's enthusiast club in your area.
- Explain your situation to your landlord or mortgage company and try to arrange a payment option to free up rent money for veterinary treatment.
